airregulationsrkbalipdf airregulationsrkbalipdf Hello, I am from Kazakhstan and I have such a problem. I want to start my workouts and in order to increase my strength I did exercises with big weights, but I can't lift big weights and I don't know what to do. I was in the gym and I can't lift big weights. I can't even lift my trainer's weight. I would be very grateful if you could help me. Waiting for an answer. Best regards Azamat Good afternoon! First you need to understand that in your case it is not weight lifting.
