Summary: If you have one of the older PowerBooks, you'll want to use one of the following methods to get the best performance from your new Mac. Make sure you partition your drive appropriately if you're converting to an SSD – you'll need to provide enough space for OS X, plus a full backup of your data. If you have an SSD and a hard drive, partition your hard drive before converting to an SSD. Be sure to create a separate bootable partition (using Disk Utility) and set the Mac's bootable flag for the partition using the defaults command. You'll also need to remove your Mac's proprietary hard drive bays, if you've still got them, to let your new SSD run air, then add them back to your computer when you're ready to install an HDD. Finally, check out our guide on how to convert your entire drive to an SSD for a lightning-fast Mac. Free Your Mac's Boot Drive Your new MacBook Pro or MacBook Air will be booting from your internal SSD drive. If you have an optical drive or are not using your Mac daily, it's often a good idea to remove it for performance and protection reasons. You can remove the disk easily by opening the bottom of the Mac and prying up its bottom cover. Be careful as it is a bit more fragile than before and you should be careful when doing so. After removing the disk, reconnect it and configure it in your system preference's startup disk preferences. This will allow you to boot from

" />   Q: How to get current url-path value in a Lightning Component? I have a re-rendered VF page that I created in Lightning Experience. I want to know the current URL-path of this page. Is this possible? A: The lightning-html component jsDocs offer you documentation on the component via URL for example: You could then parse the url with reference to the docs above For example the path: "href" indicates the current URL: For example: component.find("h3").getElement().getAttributes().getNamedItem('href').getNodeValue() or component.find("h3").getElement().getAttribute("href").getNodeValue() [A case of right colon diverticulitis with anastomotic leakage complicated with ileus]. A 57-year-old man was hospitalized for acute right colon diverticulitis accompanied by ileus. Emergency CT showed a dilated posterior wall of the right colon. Laparotomy was considered necessary, however, acute abdomen was improved spontaneously and contrast medium was discharged from the anus. The site of diverticulitis was resected, but the diverticula arose from a site of the ascending

Elder tale is a fantasy action RPG from the Korean developer BackSlash and is slated to be released on November 11. This article contains spoilers. Tarnished A Lord that causes chaos, Destruction To Be a Lord, one's origin must be a God. Among other gods, the Goddess of Fate, Hestia, made a deal with the humans that they could become gods. A Lord who is neither God nor human, and has no connection with the gods whatsoever, is known as a Tarnished Lord, and have existed since human beings began to exist. The Tarnished Lords live in lands in between the lands of the Gods. Many of these lands were once wild, desolate forests, but the Lord of Destruction, a Tarnished Lord that was once a human being, ruled over them. As a human being, he had once led a poor life, but was enveloped in an explosion of events. When he was young, at the time when "A Storm of Forces" was raging, his mother and father died in a shipwreck, and he vowed that he would live a life devoted to his Father, in order to avenge their deaths. Now that he has ascended to the powers of a God, he is now called Tarnished." In all of the Lands Between, demons called Nobodies have arisen, each with an incomprehensible power. The Nobodies' powers have descended on the lands, and human civilization is falling apart. In these chaotic times, it is said that there exists the Goddess of Fate, Hestia. The Tarnished Lord has now managed to reach the God Realm, and it is said that now the Nobodies will meet in a desperate struggle. bff6bb2d33
